THE REGINA COELI

Throughout the year we pray the Angelus, however during the Easter Season we pray the Regina Coeli daily at 12:00pm and 6:00pm.

V. Regina caeli, laetare, alleluia.
R. Quia quem meruisti portare, alleluia.
V. Resurrexit, sicut dixit, alleluia.
R. Ora pro nobis Deum, alleluia.
V. Gaude et laetare, Virgo Maria, alleluia.
R. Quia surrexit Dominus vere, alleluia.

Oremus.

Deus, qui per resurrectionem Filii tui, Domini nostri Iesu Christi, mundum laetificare dignatus es: praesta, quaesumus; ut per eius Genetricem Virginem Mariam, perpetuae capiamus gaudia vitae. Per eundem Christum Dominum nostrum.

Amen.

The Regina Coeli (Queen of Heaven) in English

V. Queen of Heaven, rejoice, alleluia.
R. For He whom you did merit to bear, alleluia.
V. Has risen, as he said, alleluia.
R. Pray for us to God, alleluia.
V. Rejoice and be glad, O Virgin Mary, alleluia.
R. For the Lord has truly risen, alleluia.

Let us pray.

O God, who gave joy to the world through the resurrection of Thy Son, our Lord Jesus Christ, grant we beseech Thee, that through the intercession of the Virgin Mary, His Mother, we may obtain the joys of everlasting life. Through the same Christ our Lord.
Amen.

WESTPORT ECO CONGREGATION

Earth Week 14th – 22nd April 2023

Build a brighter, greener, and more equitable future for generations to come. Be a part of the solution. The time is NOW to Invest in Our Planet! It's time to divest from destruction and invest in a sustainable, safe future. Reduce your plastic consumption.

Did you know that 35% of microplastics in the world's oceans come from the laundering of synthetic fibers? Harmful industries are responsible for an *incredible* portion of greenhouse gas emissions, pollutants, and other harmful elements, all while raking in profit at record rates. **Plastic pollution** is one of the most important environmental problems we face in today's world. We all contribute to this problem and must work to reduce, and ultimately end, plastic pollution. Make a plan this Earth Day to reduce your plastic consumption using EARTHDAY.ORG's [plastic calculator](#)

Make sustainable fashion choices.

The fast fashion industry has completely revolutionised fashion, but not for the better. Behind every piece of clothing in the store, there is a destructive industry stripping the Earth of its limited resources and placing a devastating toll on the labour force working in garment factories. Tremendous amounts of waste characterise this industry, as we send approximately 40 million tons of textiles to landfills or to be incinerated every year. In total, the fashion industry is responsible for over 8% of total greenhouse gas emissions.
