CEMETERY MASS – THIS SUNDAY

The summer Cemetery Mass will take place in Aughaval cemetery on Sunday July 2nd at 2:00pm. Please let family who are away and would like to travel know about this.

REEK SUNDAY 2023 – SUNDAY JULY 30th

**CONFESSIONS ON THE SUMMIT FROM 7:30AM – 2:00PM,
MASS ON THE HOUR FROM 8:00AM – 2:00PM.**

Over the last few years Croagh Patrick stakeholders group have been responsible for monumental work in preserving and safeguarding the mountain. As the largest annual gathering on the Reek it is essential that Reek Sunday pilgrims and indeed all pilgrims play their part:

Croagh Patrick is an iconic feature of the Mayo landscape of significant natural, cultural and spiritual importance. While the National Pilgrimage Day on Croagh Patrick stretches back many generations, we are conscious of the obligation to support the conservation of the mountain for future generations.

The Church has actively engaged with other Stakeholders to undertake the Sustainable Access and Habitat Restoration project currently underway on it which aims to provide a robust path for access and to restore the eroded parts of the mountain. As part of our support for the project, we have committed to minimising the impact of pilgrimage on Croagh Patrick, the drinking water that comes from the mountain streams, the local community and other users of the mountain. In order to do this, we ask each pilgrim to comply with the following;

1. If traveling by car, please park responsibly and follow the instructions of stewards on the day.
2. Stay on the defined path on the mountain (where in place) and do not encroach on the adjoining habitat which may be in the process of restoration.
3. The mountain streams provide drinking water for the local community. Be respectful of this while on the mountain.
4. We endorse the Leave no Trace Principle. Please do not discard any litter on the mountain.

It should also be noted that there are no dogs allowed on the mountain. Please respect this requirement.

**NEW PARISH OFFICE OPENING HOURS
MONDAY & THURSDAY 10:00AM – 5:30PM
10:00AM - 3:00PM TUESDAY, WEDNESDAY & FRIDAY**

Care of Creation Westport Eco Congregation

Plastic free July is a global movement that helps millions of people be part of the solution to plastic pollution – so we can have cleaner streets, oceans, and beautiful communities. Will you be part of Plastic free July by choosing to refuse single use plastics?

22,000 coffee cups are disposed of in Ireland every hour, that is 528,000 every day or 200 million a year.

Single use coffee cups are not on Recycling List Ireland and cannot be put in the Recycling Bin.

Up to 200 million single use coffee cups are thrown away every year in Ireland, and cannot be disposed of in recycling bins. That is the message from *Recycling List Ireland**, as it encourages coffee and tea lovers to reduce their use of disposable cups, and consider using a ceramic or reusable coffee cup instead.

While many disposable cups carry the recyclable logo, the actual cup is not currently recyclable in Ireland and must be disposed of in general waste. The logo refers only to the rigid plastic lids and the cardboard sleeves on some cups, which can be removed and placed for recycling.

Waste Prevention Officer with the Southern Region Waste Management Office and Recycling List Ireland's Pauline McDonogh said, "As disposable cups are made largely from paper many people believe they can be recycled, but unfortunately this is not the case. These cups are lined with plastic polyethylene which is fused to the paper making the cups waterproof but also difficult to recycle.

"Of course single use cups are also contaminated by the drink they contained, which is yet another reason why they cannot be added to the bin of clean and dry recyclables."

"As many as six single use coffee cups are disposed of every second in Ireland, which results in a lot of non-recyclable waste in the form of 528,000 single use cups every day. Right now the only way to combat this waste is to reduce our dependency on these single use coffee cups," explained Ms McDonogh.

"*Recycling list Ireland* is not suggesting however that anyone goes without their regular cuppa, but we are appealing to consumers to consider using the ceramic cup in their favourite cafe or bring along a re-useable cup for their take away. Once the reusable cup has been used more than 15 times, it is more sustainable than a disposable cup."

"It is worth noting that more than 1,000 cafés in Ireland are now giving a discount to consumers with a reusable cup so long term a reusable cup can make environmental and economical sense. Will you be part of Plastic free July?"
